Answers for Questions

1. How should users navigate between pages?
   > 1. Menu bar 2. Link in the 'The Vallejo Public Library' to go back to home
2. How will be possible to find a specific book? Think of all possible alternatives and select at least two. Justify your choices
   > 1. Title, Author, Book ID at 'search' : it is easy for users who already have specific details about the book
   2. Category (ex. fantasy, novel, science, etc) at aside bar : it is useful for users who is trying to discover book rather than searching by specific details
